

## Directions to Pike's Cottage

There is a metal gate at the entrance to the track that leads to Pike's Cottage. Please drive in and close the gate after you!

From the pump in Hemyock (by the fish and chip shop), take the road that heads South up the hill and follow it for about 2 miles **without turning off**, until you get to the driveway on your left that leads to Pike's Cottage. The road from Hemyock leads uphill for about a mile, then drops steeply down to the Madford River. Continue on... don't turn right into the dead end lane to Mackham which leads to our main site, but carry on up the hill a short distance and the track that leads to Pike's Cottage is on your left, through a metal gate and just before a big wooden gate.

We look forward to seeing you.

Richard and Alison Whiteside.
